**PETITION FOR REVIVAL OF AN APPLICATION FOR PATENT ABANDONED
UNAVOIDABLY UNDER 37 CFR 1.137(a)****3. Terminal disclaimer with disclaimer fee**

- ☒ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.
- ☐ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. An adequate showing of the cause of the delay, and that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition under 37 CFR 1.137(a) was unavoidable, is enclosed.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

PETITION FOR REVIVAL OF AN APPLICATION FOR PATENT ABANDONEDUNAVOIDABLY UNDER 37 CFR 1.137(a)

Dear Sir:

This paper accompanies form PTO/SB/64, and includes details as to the reasons why the abandonment of US Application No. 10/552,887 was unavoidable. The reasons are provided as follows.

On May 4, 2010, Examiner Collins contacted a representative of the Applicant advising that she had made a mistake in the Advisory Action that was issued on March 8, 2010. She further advised that because of this mistake, she would provide the Applicant with suggested amendments. She advised that if the suggested amendments were acceptable, she would mail a Notice of Allowance, but also advised that since the statutory period for reply would expire the next day, May 5, 2010, an answer by May 5, 2010 was required; otherwise the application would go abandoned. These circumstances created a sense of urgency for allowance of the case.

App. No. 10/552,887

Examiner Collins advised that the suggested amendments would require deposit of seeds for the transgenic strains, but assured the representative of the Applicant that the deposit of seeds could be made at a later stage.

On May 4, 2010, Examiner Collins faxed a draft Examiner's Amendment and Requirement of Allowance Under CFR 1.801-1.809. The following was provided in the draft.

REQUIREMENT OF ALLOWANCE UNDER 37 CFR 1.801-1.809

The Deposit Statement in the specification is deemed in accordance with 37 CFR 1.801-1.809. Since the application is otherwise in condition for allowance except for the needed deposit of seed, and since the Office has received written assurance that an acceptable deposit will be made on or before payment of the issue fee, the Office is authorized to mail Applicant a Notice of Allowance and Issue Fee Due together with a requirement that the needed deposit be made within THREE (3) MONTHS of the mail date of this letter (see 37 CFR 1.809(c)).

As set forth in 37 CFR 1.809(c), Applicant is required to deposit 2500 seeds of the claimed plant within THREE (3) MONTHS of the mail date of this letter; thus the time for making the deposit is on or before the payment of the issue fee. Although the time period for paying the issue fee cannot be extended, the time period for satisfying the deposit requirement may be extended under the provisions of 37 CFR 1.136. Failure to make the needed deposit of 2500 seeds will result in abandonment of the application for failure to prosecute.

Applicant is reminded that once the deposit of seed has been made, information regarding the date of deposit, description of the deposited material including number of seeds deposited, name and address of the depository, and the accession number must be added to the specification in order to comply with 37 CFR 1.809(d). In addition, the claims must be amended to replace the blank" " with the appropriate Accession Number. Amendments to the specification and the claims should be submitted before the payment of the issue fee as an Amendment After Allowance under 37 CFR 1.312. If the amendment is received after the payment of the issue fee, the same should be made under the provisions of 37 CFR 1.312(a) and a petition filed under 37 CFR 1.183 to waive the requirement of 37 CFR 1.312 that the amendment be filed before or with payment of the issue fee; that is, it must be accompanied by a fee in accordance with 37 CFR 1.17(i) and a petition which includes a "showing of good and sufficient reasons why the amendment is necessary and was not earlier presented, and why justice requires waiver of the

App. No. 10/552,887

rule." [underlining added]

In view of the discussion with Examiner Collins and the provisions underlined above, Applicant was lead to believe that the rules governing the submission of the seeds prior to issuance would be waived as long as the provisions provided by Examiner Collins were satisfied. Under this pretense and a sense of urgency for allowance imparted by Examiner Collins, Applicant accepted the draft Examiner's Amendment.

On May 17, 2010, a Notice of Allowance was issued by Examiner Collins. The Notice of Allowance included the above provisions. In accordance with the provisions underlined above, Applicant submitted a payment of the issue fee and a one-month petition for extension of time under 37 CFR 1.136 for the deposit of seeds on August 16, 2010. On September 15, 2010, a two-month extension of time was filed, and on October 8, 2010, a three-month petition for extension of time was filed, thereby extending the period of response from August 17, 2010 to November 17, 2010. Applicant also prepared a petition filed under 37 CFR 1.183 to waive the requirement of 37 CFR 1.312 that the amendment be filed before or with payment of the issue fee.

On October 22, 2010, a Notice of Abandonment was mailed. The Applicant was advised by Examiner Collins' supervisor, Examiner Grunberg, that the Notice Abandonment was mailed because a deposit of seeds was not made before or at the time of the issue fee.

The provisions in the draft Examiner's Amendment and Requirement of Allowance Under CFR 1.801-1.809 sent on May 4, 2010 and the Notice of Allowance sent on May 17, 2010 clearly state that the time period for satisfying the deposit requirement may be extended after the payment of the issue fee. The provisions even set forth in detail the requirements that need to be satisfied in the event that an Amendment including the deposit information is submitted after the payment of the issue fee. Thus, the information presented by Examiner Collins provided a reasonable basis to conclude that the requirement of depositing the seeds prior to payment of the issuance fee would be waived if the provisions set forth above were satisfied, and to proceed with accepting the Examiner's Amendment and submitting the seeds after the payment of the issuance fee. Therefore, the abandonment of US Application No. 10/552,887 was unavoidable. Applicant respectfully requests revival of US Application No. 10/552,887.

App. No. 10/552,887

Applicant also respectfully requests reimbursement of \$555 for Petition for Three-month Extension of Time. If the application is being considered abandoned, the extensions in fact were not available. Accordingly, Applicant respectfully requests reimbursement of the fee of \$555.

In the event that US Application No. 10/552,887 is revived, Applicant requests favorable consideration of the Petition Under 37 CFR 1.183 to Waive the Requirement of 37 CFR 1.312 submitted with this paper. The Petition Under 37 CFR 1.183 to Waive the Requirement of 37 CFR 1.312 is accompanied with a Declaration and an Amendment including the deposit information in accordance with the provisions set forth above in the Notice of Allowance that was mailed on May 17, 2010. Applicant respectfully submits that diligent efforts were made in pursuing the deposit of the seeds, and therefore, requests waiver of the rule.

Applicant requests confirmation that the Amendment is being entered and the application is proceeding to issue. Any questions or concerns regarding this communication can be directed to the attorney-of-record, Douglas P. Mueller, Reg. No. 30,300, at (612) 455.3804.

Respectfully submitted,

PETITION UNDER 37 CFR 1.183 TO WAIVE THE REQUIREMENT OF 37 CFR 1.312

Dear Sir:

Applicants respectfully request the Group Director for Group Art Unit 1638 to waive the requirement of 37 CFR 1.312 that the amendment be filed before or with the payment of the issue fee. In accordance with 37 CFR 1.183 and the "Notice of Allowability" mailed on May 17, 2010, the following is provided:

- A. The petition fee of \$130 under 37 CFR 1.17(i);
- B. A showing of good and sufficient reasons why the amendment is necessary and was not earlier presented is provided as follows:

11/10/2010 HMARZ11 00000012 503478 10552887

02 FC:1464 130.00 DA

App. No. 10/552,887

The Examiner's Amendment included in the "Notice of Allowability" mailed on May 17, 2010 amended the claims as follows:

23. (Currently amended) The A transgenic indica rice variety designated Godavari
8 produced by the method according to claim 17, representative seed of said
transgenic indica rice variety having been deposited under XXXX Accession
Number XXXX wherein the mature transgenic plants of said rice variety display
increased superoxide dismutase (SOD) activity as compared to a corresponding
plant variety without said expression vector of step (a) in the presence of
environmental stress.

34. (New) A transgenic indica rice variety designated Salween 2, representative seed of said transgenic indica rice variety having been deposited under XXXX Accession Number XXXX.

Thus, the amendment including the deposit information was not earlier presented because such an amendment was required only after the Examiner's Amendment. Furthermore, the amendment to the allowed claims is necessary to comply with the Requirement of Allowance as indicated in the "Notice of Allowability" on May 17, 2010.

C. A showing of good and sufficient reasons why justice requires waiver of the rule is provided as follows:

In the Examiner's Comment regarding the requirement for deposit of biological material in the "Notice of Allowability", it was advised that the claims must be amended to include the deposit information. It was further advised that although the time period for paying the issue fee cannot be extended, the time period for satisfying the deposit requirement may be extended under the provisions of 37 CFR 1.136.

App. No. 10/552,887

On August 16, 2010, the issue fee was submitted, along with a petition for one month of extension of time under 37 CFR 1.136 in accordance with the "Notice of Allowability" mailed on May 17, 2010.

Moreover, a detailed timeline of the events relating to deposit of the seeds between May 4, 2010 and October 21, 2010 is provided below. The events of the detailed timeline have been verified by a manager at Avestha Gengraine Technologies Pvt. Ltd. in a Declaration under Rule 1.132 submitted herewith.

On May 4, 2010, a draft Examiner's Amendment was sent by Examiner Collins and the draft Examiner's Amendment was forwarded to a representative of Avestha Gengraine Technologies Pvt. Ltd. (hereinafter, "Avesthagen"; Avesthagen is the assignee of current application) on the same date. On May 5, 2010, the draft Examiner's Amendment was accepted.

Between approximately May 6, 2010 and June 29, 2010, efforts were made by representatives of Avesthagen to locate an appropriate depository.

Initially, MTCC, an International Depositary Authority (IDA) in India, was contacted. However, the representatives of Avesthagen were informed that MTCC does not accept seeds.

Further efforts were made to find alternatives to an IDA under 37 CFR §1.803. The National Bureau of Plant Genetic Resources (NBPGR) was identified as a possible candidate as an alternative to an IDA.

On May 25, 2010, a fax was sent to Examiner Collins asking if NBPGR would be an acceptable depository for the deposit of the seeds.

On June 25, 2010, the Examiner advised that the NBPGR is not on the PTO's approved list of IDAs, and therefore, a deposit with them would not be accepted.

On June 29, 2010, a representative of Avesthagen contacted Ms. Roschelle, an associate specialist from ATCC in the US. Ms. Roschelle provided the list of requirements for the deposit to be made at ATCC.

App. No. 10/552,887

On July 2, 2010, an account under Avesthagen was opened as part of the requirements for the deposit. The required forms for the deposit of seeds also were completed and submitted. At this time, Ms. Roschelle was replaced by Ms. Latha Ramakrishnan. World Courier, an international courier service provider, was then contacted regarding the shipment of the seeds from India to ATCC.

On July 13, 2010, ATCC informed a representative of Avesthagen that an import permit is not required for the shipment of the seeds from India to ATCC in the US.

On July 28, 2010, a payment was made to World Courier for the consignment.

On July 29, 2010, documents to World Courier were submitted to clear Indian and US customs.

On July 30, 2010, a payment for the deposit of the seeds was wire transferred to ATCC. World Courier also informed a representative of Avesthagen that a permit is required by the US customs.

On July 31, 2010, World Courier asked a representative of Avesthagen whether the seeds are genetically modified organisms (GMO) or non-GMO. A representative of Avesthagen indicated that the seeds were the former.

On August 2, 2010, customs in India was cleared. However, World Courier needed an import permit for the seeds to clear US customs so they contacted ATCC. ATCC then contacted a representative of Avesthagen regarding the detailed information of the seeds.

Between August 3 and 4, 2010, a representative of Avesthagen submitted the detailed information regarding the seeds to ATCC.

On August 5, 2010, ATCC confirmed that an import permit is not required, but indicated that an import permit letter was required.

On August 6, 2010, US customs informed a representative of Avesthagen that they wanted confirmation from ATCC, and that they would release the seeds only after the confirmation was received. Apparently, attempts were made by the US customs to contact ATCC, but US customs indicated that they were forwarded to voice mail.

App. No. 10/552,887

On August 12, 2010, ATCC informed a representative of Avesthagen that ATCC has applied for a USDA Biotech Regulatory Services (BRS) permit, and on a USDA BRS officer's advice, applied for BRS notification and for PPQ 526 on August 6, 2010. The applications include a BRS permit application, BRS notification application and PPQ 526 application. The application numbers are: 10-218-102m (BRS permit application), 10-218-102n (BRS notification application) and P526-100806-009 (PPQ 526 application).

On September 15, 2010, all documents required for shipment from ATCC (the notification from the BRS and the labels) were received, but ATCC posed another requirement of obtaining a phytosanitary certificate.

On September 28, 2010, the accession numbers were received.

Applicants respectfully submit that diligent efforts were made in pursuing the deposit of the seeds, and therefore, request waiver of the rule.

Applicants request confirmation that the Amendment is being entered and the application is proceeding to issue. Any questions or concerns regarding this communication can be directed to the attorney-of-record, Douglas P. Mueller, Reg. No. 30,300, at (612) 455.3804.
